Description: What the financial diaries of working-class families reveal about economic stresses, why they happen, and what policies might reduce them Deep within the American Dream lies the belief that hard work and steady saving will ensure a comfortable retirement and a better life for ones children. But in a nation experiencing unprecedented prosperity, even...

Review: I work regularly with families in the situations described in this book, but never got the full view into their challenges until I read The Financial Diaries. It is an astounding book, no matter where you are in the economic stack. Everyone needs to understand these folks and how they deal with life - they are us, we are all in this together, and...
